

Dear pete.

I would like to say a big thankyou for all your help and advice.

As you know I have struggled with Champ's aggression for over two years, and despite various different trainers and methods, had not really made any significant progress. I explained to you that Champ's aggression was a huge problem as I was terrified to take him out. A previous trainer had used some harsh methods but to no avail, and I now understand why.

Your methods of training have not only taught me how to gain control of Champ, but you have explained why it is so important for me to gain leadership in order to change Champ's attitude and of course mine.

I am far from leadership yet, but now know that with continued effort it can be achieved.

I am already making progress with the cheeky chap.

It is because of your skills, not only with dogs, but your ability to explain your methods of training that have finally shown me direction, which is greatly appreciated.

Many Thanks!

Thanks again pete.

regards

Susanne, Shannon and of course Champ.

P.S A big thankyou to your lovely dogs for their part in Champ's training.
